E-mobility adoption: EVIO's Success story

TITLE: CEO

SPEAKER: Carlos Almeida

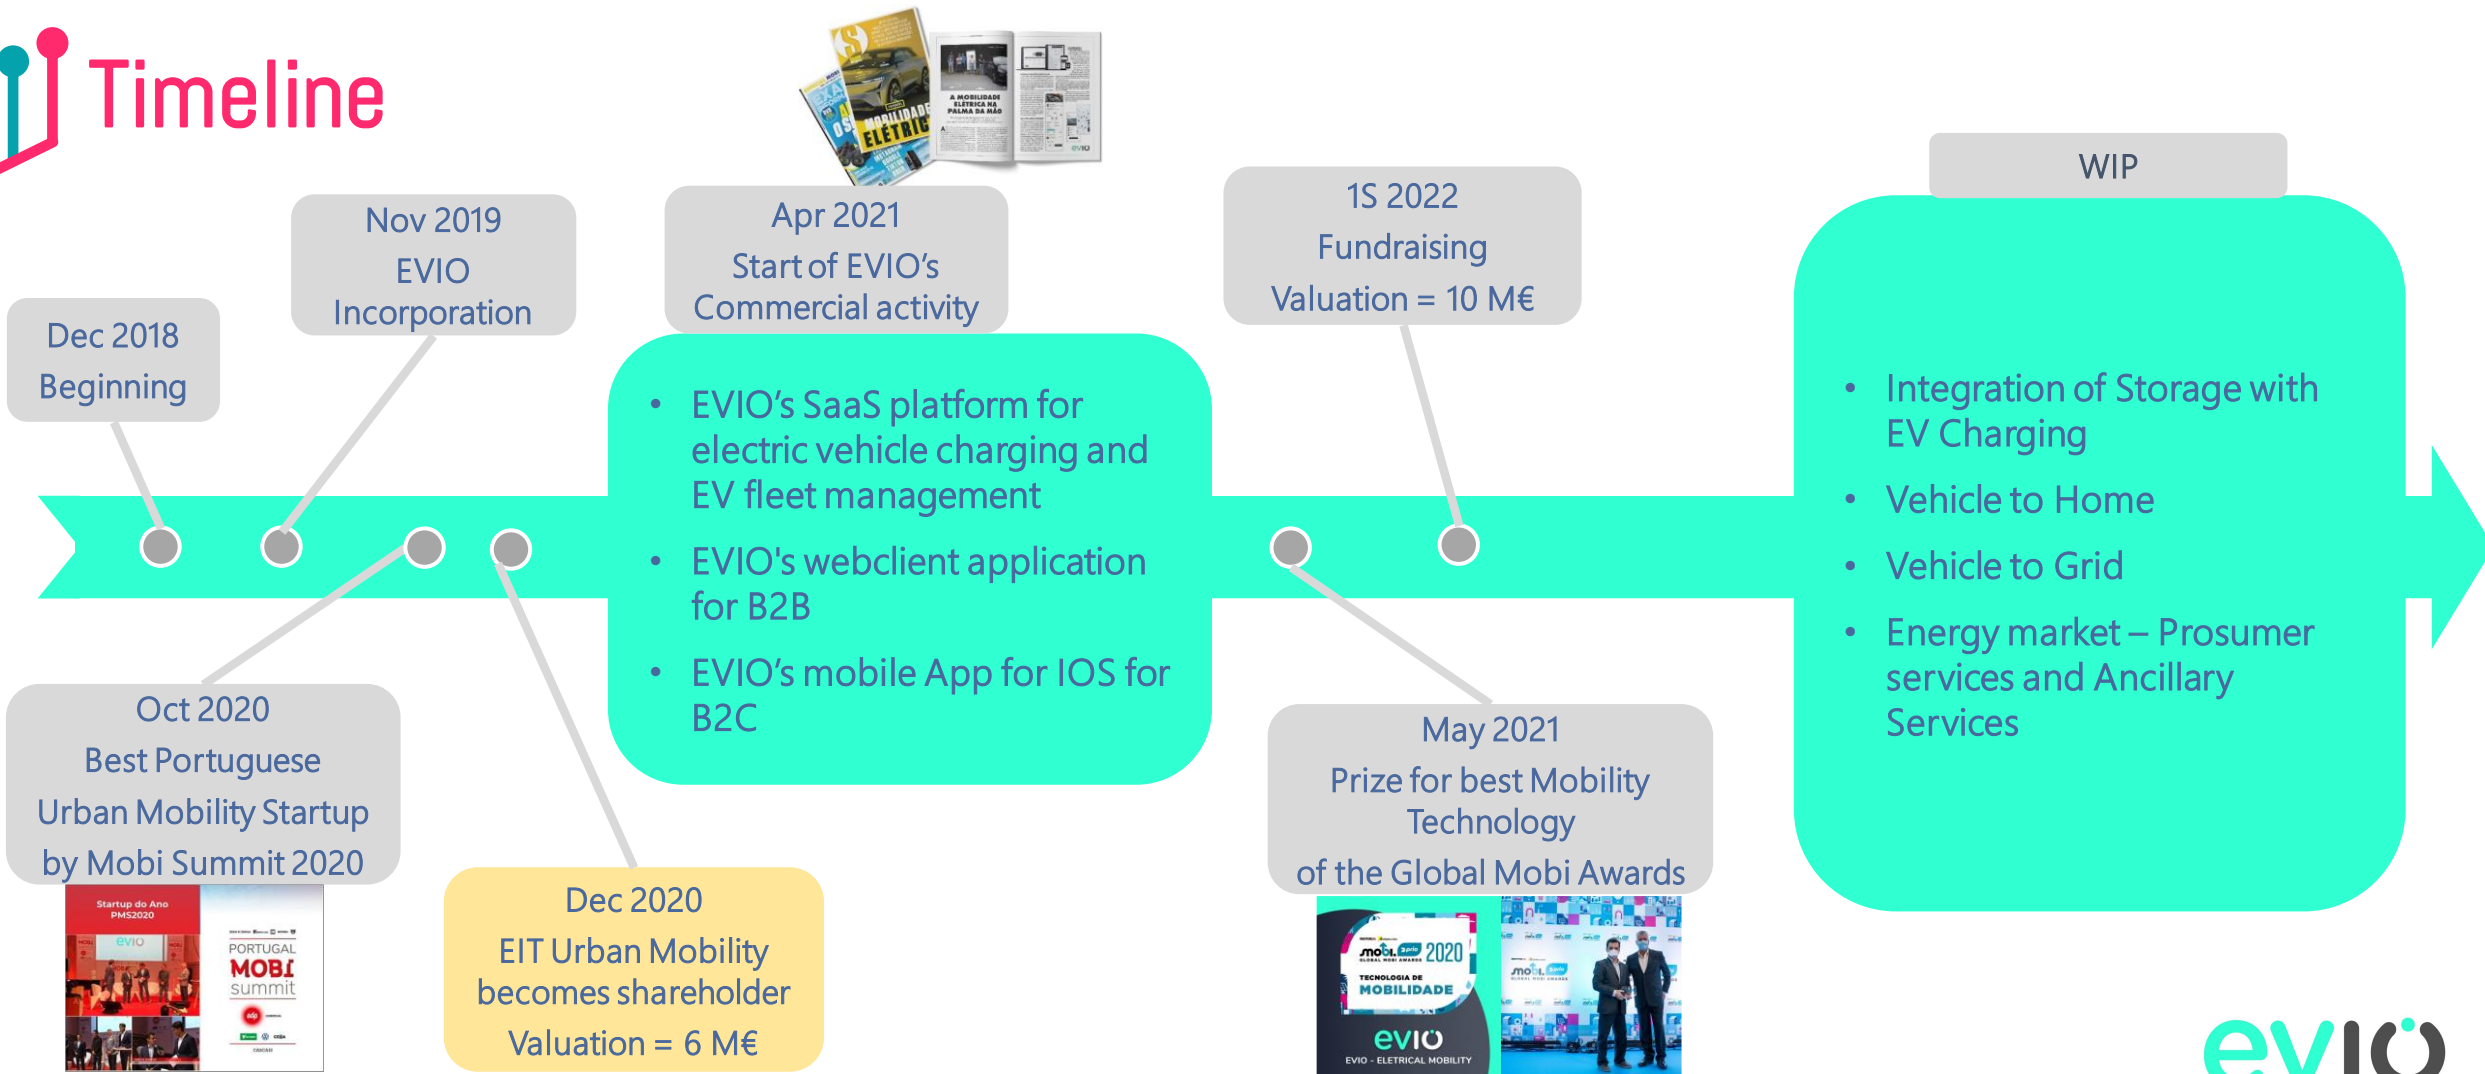

EVIO IS LEADING INNOVATION IN ELECTRIC VEHICLE CHARGING

- Developed an **intelligent and agnostic platform** for the electric vehicle charging ecosystem, capable of providing services to all players in the electric mobility ecosystem.
- Promotes **sustainable charging**, promoting the use of renewable energy and efficient use of resources. We link the world of Mobility and Energy.
- Provides solutions for **B2B2C, B2B** and **B2C**.
- We also provide a charging network, where anyone can share their private charging station and monetize it.
- **International** presence.
- We are:
 - Electric Mobility Service Provider (**eMSP**),
 - Charge Point Operator (**CPO**),
 - **Electricity Supplier** for electric mobility (CEME) in Portugal.

Timeline

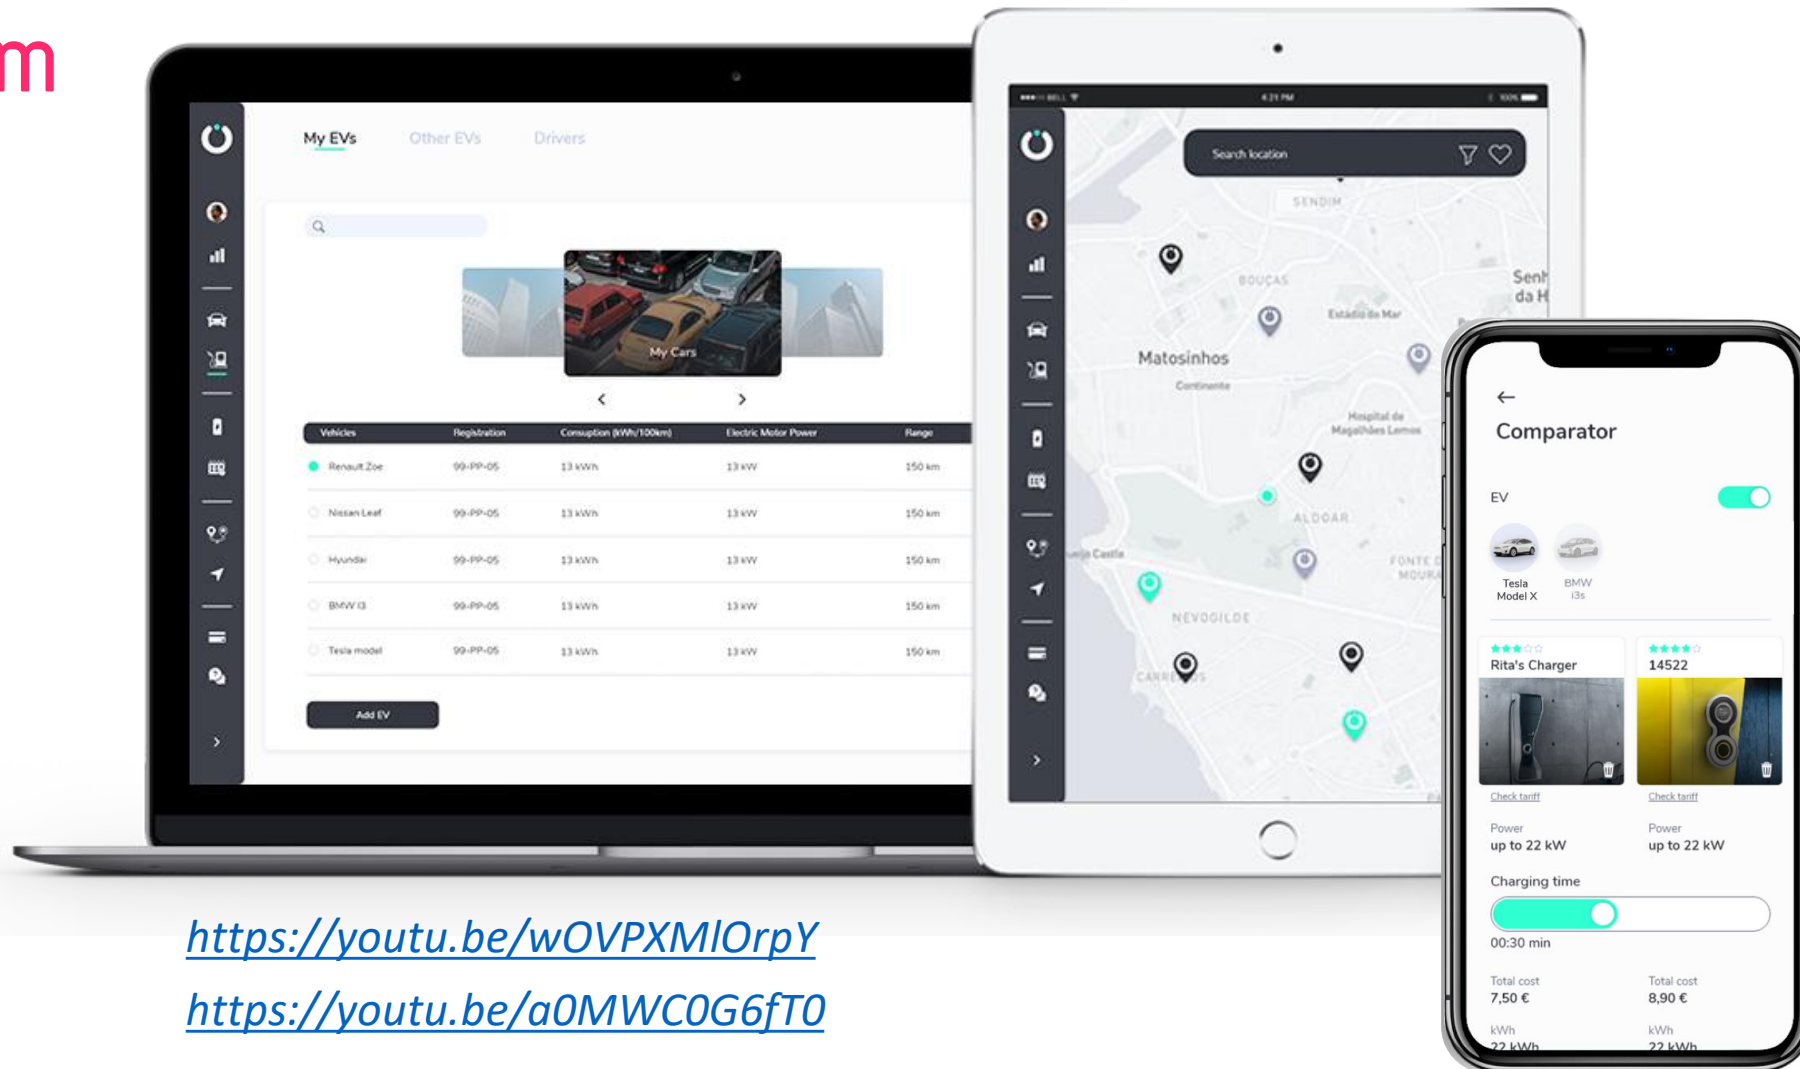

We have solutions for

Business Model

B2B2C	White Label – B2B and B2C solutions
	Integration through API
B2B	Company's internal charging stations management
	EV Fleet Management
	Charging across other European CPO networks
	New Energy Services (WIP)
B2B	Monetization services (third use and access)
	New Energy Services (WIP)
B2C	CP Management
	EV Charging outside
	Monetization
	New Energy Services (WIP)

EVIO Platform

Highlights

Allows different charging options: reducing carbon footprint, lower cost, schedule, duration, money, kwh, etc.

Total charging cost simulator.
Charging station cost comparator.
Several payment methods available on the App.

Notifications to the user.
Aggregated consumption and statistics.

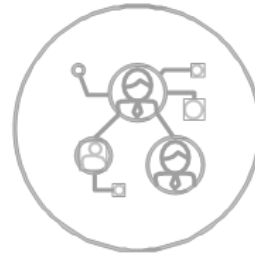

Energy load balancing / Local power management

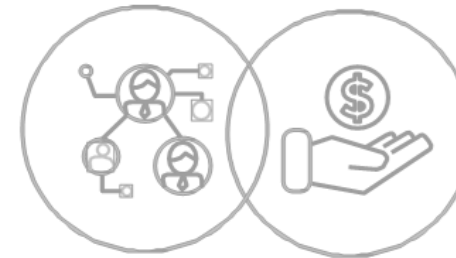

Data analytics & insights and AI functions

Agnostic.
Compatible with several charging protocols and 3rd party chargers available in the market

Integration with other national and international networks and providers.
Roaming

Share and Monetize Charging
@Home @Office @Condo
We bring demand to your investment, reducing payback time

EV battery to supply energy to Infrastructure
Ancillary services
Prosumer services
